Papers, 1931-1968 (bulk 1958-1968)
.25 cubic feet (1 box)

SUMMARY: Speeches, lectures, and correspondence of public health official Herman Hilleboe, as well as a transcript of an oral history interview with him.

BIOGRAPHICAL NOTE: Herman Ertresvaag Hilleboe received his M.D. from the University of Minnesota in 1931; his M.P.H. from the Johns Hopkins School of Hygiene and Public Health in 1933; and, an honorary degree from the University of Rochester in 1954. He married Alica Champeau in 1929. They had 3 children.

ORGANIZATION: Organized in three series: I. Speeches and lectures; II. World Health Organization; III. Biographical.

SCOPE AND CONTENT: Speeches, lectures, and press releases, mostly from Hilleboe’s time as Commissioner of Health for New York State, make up the largest part of the papers. Topics covered include public health and public health administration, planning and education. Other subject matter includes tuberculosis, heart disease, environmental pollution, civil defense, radiation, rehabilitation, and problems of the aged and needy. Some were given at the dedication of various public health and medical facilities.

Also included are correspondence and various forms connected with a course on radiation health and safety taught by Hilleboe in Japan for the World Health Organization; a 1964 interview of Hilleboe, largely concerning his tenure as New York State Health Commissioner; and a memoir by him of his activities while leading the New York State Health Department.
